Do you have what it takes to help keep the lights on for our customers in communities across the province? Then joining the Newfoundland Power team could be part of your next adventure...

Who We Are

At Newfoundland Power, we're passionate about delivering safe, reliable, and affordable electricity. Our roots in Newfoundland and Labrador go back over 135 years. Today, we're part of Fortis Inc., a leader in the regulated gas and electric utility industry in North America. We are proud to employ over 600 talented people who are among the best in the industry.

We are committed to ensuring a supportive, inclusive and diverse culture where everyone feels safe and valued for who they are. Together, we strive to create an environment which is free of discriminatory barriers, where everyone is treated respectfully and equitably so they can thrive and bring their whole selves to work.

Everything we do is guided by our core values: People, Safety, Service, Respect, Teamwork and Innovation. We believe in going above and beyond to serve our customers and giving back to the place we call home is a longstanding tradition held by our employees. This could be the opportunity for you to continue to grow and develop your career.

The Opportunity

As a valued member of our Internal Audit team, you will be responsible for planning and executing audits of varying levels of complexity including financial, compliance, information technology and operational audits. You will execute testing of internal controls over financial reporting to support compliance with Sarbanes-Oxley requirements. You will also be responsible for completing thorough quality assurance of documents filed with external parties.

Your qualifications include a degree in Business or related discipline with a minimum of two years of relevant experience. Preference will be given to applicants with a professional designation, such as the Chartered Professional Accountant or Certified Internal Auditor designations. You have strong computer skills and experience with computer assisted analytics would be beneficial.

You are a highly motivated team player with a strong commitment to safety and customer service. You have an excellent work ethic and effective interpersonal and communication skills to complement your strong analytical and numerical ability, and investigative mind. You are a self-starter who takes initiative and works independently. Your ability to learn and understand a diverse range of topics is essential, as is your ability to manage multiple priorities under tight deadlines in an often high-pressure environment.

How to Apply

If this sounds like you, please **Apply** or visit us online at <https://careers.newfoundlandpower.com>.

In support of our DEI commitment and to help us to confirm that we are reaching a wide source of qualified job seekers, we invite all applicants to provide self-identification information on a **voluntary** basis during the recruitment phase. More information on this process is provided within our job application tool.

We thank all applicants for their interest. Applicants selected for an interview will be contacted directly. If you require accommodation for any reason during the interview process, please let us know what you need, and it will be kept in confidence. For any questions, please contact Careers@newfoundlandpower.com.
